SKYLINE GREY

800 mm x 800 mm

Combining the granular detail of cement screed with the subtle movement effects seen in terracotta, Skyline Grey is a new fusion that works in a variety of modern settings. The overall appearance is of wispy, stippled clouds but the injection of humanity in the handmade terracotta technique is evident on closer inspection. Achieve a serene, uninterrupted effect thanks to the large format of the tiles, and rely on the light grey tones to work with almost any other décor element.
